Walking Together for Healthy Communities

As Christian healthcare professionals, isn't that what we want to do? **Mennonite Healthcare Fellowship (MHF)** is about **walking together** as a multi-discipline fellowship of Anabaptist Christians seeking to integrate faith and practice in the complex situations in which we live. **Won't you join us this year?**

Whether you were a member of one of our predecessors (MMA or MNA), whether you have been a member from the beginning of MHF in 2011, whether you have joined us along the way, or whether you have been lingering on the sidelines, **this is the time to join MHF for this exciting and crucial year!**

Walking Together for Healthy Communities is the theme for a very special Annual Gathering to be held July 19-21, 2015 in Harrisburg, Pennsylvania, immediately prior to the Mennonite World Conference Global Assembly, July 21-26. MHF is a global community and we hope that reality is demonstrated in our Gathering in Harrisburg. Online lodging reservations and pre-registration have already begun for this exciting event! **Plan to join us in Harrisburg!**

However, even if you can't attend the Annual Gathering, you can support our **walking together** and receive the benefits of MHF membership at the same time!

- Attend one of our **Regional Meetings** held in various locations throughout the year.
- Help send students overseas through the **Student Elective Term (SET)** program.
- Enjoy the quarterly **Mennonite Health Journal** published on our website.
- Keep up with friends and colleagues via our monthly email newsletter, **MHF Update**.

We have these **ambitious membership goals** for this year and you can help!

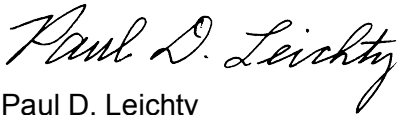

- 200 persons who previously joined MHF or one of its predecessors to **rejoin**.
- 200 **new members** from a wide variety of healthcare professions to join MHF.

If every member will recruit one other person to either rejoin or join for the first time, we will more than meet our goal! Consider **a gift membership** for a student, friend, or colleague!

Remember: Sending in your dues contributions **now** saves MHF time and money! There is an **affordable membership level** for everyone with special rates for students, volunteers, and retirees. We encourage **Sustaining Members** and additional contributions for those who are able. **All healthcare professionals are invited to join!** Every member makes a difference!

Forms are included with this letter or you can go to www.mennohealth.org/membership for additional copies or an easy online payment system using any major credit/debit card.

Join MHF this year in "**Walking Together for Healthy Communities**"!
