

This sheet is an alternative to the **online membership system** at www.mennohealth.org/membership. Using the online system, you can **pay directly** with a credit card or electronic check and **save time, money, and the environment** by avoiding so many paper mailings each year!

If you prefer to write one unified check, you can still use the online system through the IPN Donate button at <http://mennohealth.org/donations/> and send this form separately via email attachment. Or send a check along with this form via postal mail to MHF, PO 918, Goshen, IN 46527. Complete a **Member Information Form** to report further contact information and updates.

Date	Code

- * Suggested Priorities on Additional Contributions:** The MHF Operating Fund still has an outstanding loan from transition days. Here are the priorities for erasing that deficit and growing MHF:
1. **Consider a Sustaining Membership and additional donation** if you are able. This is a year by year commitment.
 2. **Extra contributions are particularly helpful** this year as we continue to pay off operating loans while growing the MHF membership for increased financial stability.
 3. **Give a Gift Membership** at the appropriate level to colleagues, friends, and students from your family or church. Please provide an email address for us to contact them.
 4. The **Mobilization for Mission Fund** now includes the **Steven Roth Memorial Grant Program**. This unified fund is **presently well-supplied**; thus members are encouraged to contribute more this year to the operating fund.
 5. The **ACHE Fund** is from the days when the Anabaptist Center for Healthcare Ethics served as a separate association of Menonite organizations. MHF is administering these funds while conversation continues on the long-term future of ACHE.
 6. The **Dr. Mary Jean Yoder Memorial Endowment Fund (MJYMEF)** promotes better health in areas of the world where funds are limited and where medical development needs are great. The fund has been used primarily to give grants to national Christians in developing countries who are studying in the medical field and have a Christian service motivation. As an endowment fund, **all contributions go toward the principle** of the fund which then generates investment interest to fund the grants.
