8. Delphin Kapasa-MPH	Congo	1200.00
9. Steve Biko--Med Student	Tanzania	1200.00
10. Nicholas Nyadimo	Tanzania	1060.00

## III. About the Endowment

The Dr. Mary Jean Yoder Memorial Endowment is an endowed Fund under the management of the Mennonite Mission Network. It has an Administrator and Benefits Committee that together manage the fund. Three of the committee members are MHF members and one is appointed by MMN. They currently are Rich Hostetter, MD, Stan Godshall, MD, and Nancy Martin, EdD, RN, from MHF, Ruth Dyal, MD representing the Yoder Family, John Lapp of MMN, Paul Leichty, Administrator of MHF, and Larry Eby as Endowment Administrator.

The DMJYE is unique in the MHF portfolio in being a fund where the benefits are not primarily for the members but rather designated for recipients in the developing countries.

Receiving letters of thanks and realizing the good that the few dollars we send to these student does is rewarding. I would invite MHF members individually and as a group to support the program and students as you can. I would also invite continued discussion with any of you how Mennonite health care professionals can give even more support to the education of Mennonite related students in developing countries in the health care fields.
